### 2011 - 2012

**\* BAGGAGE ALLOWANCE:**

The maximum weight allowed on the flights to and from Antarctica is 20 kg per passenger, including hand luggage. The excess baggage may be left in custody in Punta Arenas.

**\*\*IMPORTANT NOTICE:**

Every effort will be made to adhere to the planned program. However, it must be realized that with this type of adventurous travel to Antarctica, changes to the itinerary may occur due to severe and unpredictable weather. We need to emphasize the fact that weather conditions are unpredictable and that safety is always the paramount concern on any Antarctic voyage.

For this reason Antarctica XXI reserve the right to change the itinerary here described due to weather conditions or other factors beyond our control without consulting the participants. Any change to the planned itinerary will be made exclusively and absolutely according to the judgment of the Captain of the aircraft or the vessel.

A tight time-schedule connection with an Antarctic expedition is unwise. For this reason, we strongly suggest that a flexible air ticket be held for your journey home, and in any case not to book a flight on the same day of the return flight from Antarctica.

In case that the flight to or from Antarctica cannot take place due to unfavorable weather conditions either at point of origin and/or destination, we will apply the *Contingency Plan* corresponding to each trip.
